

## We help companies plan, optimize and execute work

- 40+ years of experience providing strategic consulting, technology services, and managed services focused on integrated solutions and robust, secure, and stable technology solutions designed to enhance your business's performance. We incorporate industry best practices into your processes and strategies to help you better serve your customers and stand above the competition.
- **Results:** We have helped organizations increase business and technology efficiencies and realize more than \$100M in cost savings and \$50M in new revenue
- **Award Winning:** The successes of our years of work have gained us several company awards, recognition, and promotions.
- **Proven & Highly Effective Tactics and Strategies:** Using Lean Six Sigma, change management, and project management principles, we help organizations improve customer retention and experience, obtain technological advantage, increase business sustainability, grow new products, and create product differentiation.

## How Can DDMC Help My Company?

- We will help you plan, optimize, and execute programs and projects throughout your organization.
- We will help manage projects and programs to help execute your business strategy and vision.
- We will use data to drive analysis and change.
- Working alongside our clients, we will identify opportunities, make diagnoses, which may necessitate redefinition of the problem, make recommendations based on the diagnosis, assist with the implementation of recommended solutions, build consensus and commitment around corrective action, facilitate implementation, and facilitate client effectiveness.
